

2016-17 D181 Student Registration - Permissions

# Measles Non-Compliance Notice

School districts are required to notify parents of students who are not fully immunized against measles due to any reason, that in the event of one suspected or confirmed case of measles, those measles-susceptible students will be excluded from school until 21 days past the last reported case of measles. School districts are not required to provide tutoring if the student is excluded due to religious exemption of measles immunization.
