[1] Consider these questions as you write your goals:

Is it Specific?

Which students need support? What content, skills, and/or knowledge do students need?

Is it Measurable?

What before and after assessment(s) will show us students have learned?

Is it Attainable?

What support and resources do we have access to? What strategies are needed to attain this goal?

Is it Results-oriented?

What are our students going to be able to know and do as a result of our goal? Is our goal focused on teaching or student learning?

Is it Time-based?

What time frame do we need to achieve our goal?

[2] Consider:

What data did you analyze to determine progress?

What did the data tell you regarding growth and achievement?

Was the action plan effective in meeting the desired outcomes?

What adjustments have you made to support students from the winter to the spring based upon monitoring of data?

How do you plan to respond to the new data collected in order to best support students?

[3] Consider:

How will these action steps integrate into my daily and weekly routines?

What artifacts will be produced by taking these action steps? How will I collect and/or organize the artifacts?

What professional learning opportunities can I pursue to support my work toward my goals?

How/when will I take time to reflect on progress toward my goals and make necessary adjustments to the plan?

For example:

Teacher created list of varied text to use for guided reading.

Develop a reading motivator chart in the classroom

MRC director leads book talks to build enthusiasm in reading and understanding of genres

Targeted Guided Reading Groups met with on a schedule, planned and supported with RS, Instructional Coach, and DS.

Double dose for students that are below grade level with Rtl support, RS, or Rtl tutors

Explicit instruction in a variety of reading strategies to monitor comprehension across all curricular areas (stop and jot, highlighting, finding definitions)

[4] What exactly do I want to achieve?

Where?

How?

When?

With whom?

What are the conditions and limitations?

Why exactly do I want to reach this goal? What are possible alternative ways of achieving the same?

For example:

By the end of 3rd grade, 80% of students will achieve a score of '2' or above on the F&P written response rubric when reading a book at their instructional level.

[5] This is where you write the data that reflects where your students are currently. Ensure you have specific data recorded in percentages. Do not use numbers of students. (instead of 6 out of 10 students, say 60% of students...)

For example:

Currently 59% of students are not at the 4th grade end of the year benchmark of level "S", which includes 38% of incoming fourth graders who are below the 4th grade beginning goal of "P/Q" . Last year 90% exited fourth grade at the benchmark of "S" or above, but 90% of students also entered 4th grade at or above the F&P benchmark.

[6] Establish concrete criteria for measuring progress toward the attainment of each goal you set.

[7] Consider:

How will these action steps integrate into my daily and weekly routines?

What artifacts will be produced by taking these action steps? How will I collect and/or organize the artifacts?

What professional learning opportunities can I pursue to support my work toward my goals?

How often, and in what manner, are you progress monitoring this goal?

How/when will I take time to reflect on progress toward my goals and make necessary adjustments to the plan?

For example:

Teacher created list of varied text to use for guided reading.

Develop a reading motivator chart in the classroom

MRC director leads book talks to build enthusiasm in reading and understanding of genres

Targeted Guided Reading Groups met with _____ on a schedule (3 days per week for 20 minutes), planned and supported with RS, Instructional Coach, and DS.

Double dose for students that are below grade level with Rtl support, RS, or Rtl tutors

Explicit instruction in a variety of reading strategies to monitor comprehension across all curricular areas (stop and jot, highlighting, finding definitions)
