## Madeline Levine

Preparing Our Kids to Thrive  
in an Uncertain and Rapidly Changing World

Increasingly, the world we know has become disturbing, unfamiliar, and even threatening. In the wake of uncertainty and rapid change, many adults are doubling-down on the pressure-filled parenting style that pushes children to excel.

Yet these daunting expectations, combined with the stress parents feel and unwittingly project onto their children, are leading to a generation of young people who are overwhelmed, exhausted, distressed—and unprepared for the future that awaits them.

Dr. Levine identifies the skills that children need to succeed in a tumultuous future: adaptability, mental agility, curiosity, collaboration, tolerance for failure, resilience, and optimism. Most important, Levine offers day-to-day solutions parents can use to raise kids who are prepared, enthusiastic, and ready to face an unknown future with confidence and optimism.
