

Dear Parent,

Thank you for your interest in open enrollment.

The flowchart linked [here](#) details the process for considering open enrollment requests for the 2023-24 school year. This process was designed with the goal of fairly and equitably considering requests for open enrollment in a manner that is sustainable and does not negatively impact educational opportunities for students.

If you would like to proceed with applying for open enrollment, please submit the form below. Submissions will be processed on June 1, in an order determined by lottery. Requests received after June 1 will be considered in the order they were received, approximately every two weeks until the start of the next school year. We will communicate the status of open enrollment requests by August 7, 2022.

If you have any questions, I welcome your call or email.

Sincerely,

Jean Duggan
